Very fun & challenging. Game seemd easy, casual graphics, reminds me about FEZ. But on the second island... oh deer - it's very difficult. The controls could be more responsive. Checkpoints would be nice. Also, in my opinion it needs some polish, some additional testing. But it's cool.. Interesting game to speedrun. Currently working on a speedrun over here

[. Pheer was a great game. D4nkSquad needs to stream it.. The game is pretty fun when you want to just relax and play a video game. The levels are challenging enough. Wish the controls were a little more responsive and that a save feature was present but overall I would say their isn't any reason to avoid playing this game.](#)
